ABOUT ME

I am passionate about building elegant and delightful user experiences, while learning new techniques and helping my team grow along the way.

EXPERIENCE

FRONT-END DEVELOPER
Prizm Labs

JUL 2016 - PRESENT

Built real-time web app for game leaderboard with *AngularJS* and *Firebase*.
Extended desktop app for games library with *AngularJS, Electron,* and *CSS3*.
Improved deployment process for Electron app with *NodeJS & Windows Server*.
Built checkout flow for product website with *Stripe API, PayPal API,* and *Heroku*.

IMMERSIVE CODING BOOTCAMP
Coding Dojo, San Jose, CA

FALL 2015

Black Belt Certifications: *Python, Ruby, MEAN Stack*

PROJECTS

KICKSTARTER VOTE TRACKER
for Special Committee board game

FALL 2016

Made with *CSS3, D3.JS, AngularJS, Firebase*

I built a web app that tracked votes for special edition options of a board game published on Kickstarter. The voting data was saved to Firebase and visualized using AngularJS and D3.JS

VENTURESCORE
Coding Dojo Hackathon Winner

WINTER 2015

Made with *Ruby On Rails, JavaScript, MySQL*

VentureScore is a web app that helps users rate ther score based on their location. I focused on UI transitions and responsive forms.

PLAYTABLE.XYZ
for PrizmLabs

FALL 2016

Made with *Python, Django, MySQL, Stripe API*

Kallaroo is a web app which helps clients search best prices for hourly workers and hire workers on-demand. I integrated online payments with the Stripe API.
