Jennifer Finaldi, Team Lead and Front End Co-Manager

a) **Contributions**:
   - Team Lead/ Project Management: Organize team meetings and group coding sessions.
   - Assign tasks, deadlines, and checked in with team members to ensure project is on track
   - Create and Manage team Discord channel, complete with github webhook
   - Communicate milestone feedback to team, and relay team questions to class CTO
   - Graphic design for custom site graphics
   - Full stack contributions: Front End html, css, routing functions, and back-end integration
   - Worked closely with the database to alter/maintain

b) **Github submissions**: **71** total commits across all branches.
   IMPORTANT: Many of these commits were the result of team coding sessions between Kevin Danh and myself collaborating as a pair over zoom screen share, which ended up being crucial to the amount of work being done on this project. Please consider the github contributions of myself and Kevin to be of equal amounts, despite the numbers in the github insights.

a) **Contributions**
  - Main Backend, Database, Cloud Deployment, Some Frontend CSS
  - Good amount of Backend and Database **work was done with Jahir through live share coding**
      - Since I am close with Jahir we would meet up a couple times a week and work through the same computer, (online live share)
  - Actively participated in group zoom meetings and discussions, along with responding direct messages when needed
  - Worked on milestones for the Backend team

b) **Github submissions**: **99** total commits across all branches.
